Administering Medicines in Schools

FEBRUARY 2012

PO-D07001.4

1 RATIONALE

Arising from a school's duty of care, there will be occasions where administering medication is necessary to support students whilst they attend school or school related activities when support cannot be reasonably undertaken by parents or others. Arising out of this duty of care is the need to ensure the proper use of medication, safety of other students and provision of training for staff.
